**BUILT TO SEPARATE.
BUILT TO PERFORM.**

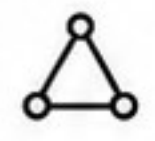

Precision sorting.
Maximum productivity.
Built for the toughest conditions.

MB-G350 S4 SORTING GRAPPLE

The MB-G350 S4 Sorting Grapple is engineered for reliable performance in demanding material handling and sorting applications. Built with high-strength steel and equipped with powerful hydraulics, it delivers precision, durability and efficiency on every job.

- 
BUILT TO LAST
 High-strength steel construction
- 
POWERFUL HYDRAULICS
 Smooth, precise operation
- 
OPTIMISED DESIGN
 For maximum productivity
- 
LOW MAINTENANCE
 Designed for easy service and less downtime

SPECIFICATIONS	
Model	MB-G350 S4
Excavator Weight	3 – 6 ton
Operating Weight	320 kg
Max. Opening Width	1 350 mm
Closed Width	180 mm
Arm Tip Force (at 25 MPa)	8.5 kN
Closing Force (at 25 MPa)	9.5 kN
Working Pressure	22 – 26 MPa
Required Oil Flow	25 – 60 L/min
Rotation	360° Continuous
Number of Tines	2
Material	High Strength Wear Resistant Steel
Warranty	12 Months (Conditional)

*Specifications are subject to change without notice.

OPTIONAL ACCESSORIES	
	BOLT-ON TOP BRACKETS Direct fit for most excavator makes and models.
	HYDRAULIC HOSE KIT High quality hoses and couplings for quick and secure installation.
	HOSE PROTECTION KIT Protect hoses from abrasion and extend service life.

APPLICATION AREAS

- 
RECYCLING
 Sort and handle recyclable materials with ease.
- 
DEMOLITION
 Efficient sorting of debris and demolition waste.
- 
FORESTRY
 Handle logs, branches and timber safely.
- 
LANDSCAPING
 Move rocks, soil and landscaping materials.
- 
CONSTRUCTION
 Material handling on construction sites.
- 
WASTE MANAGEMENT
 Improve efficiency in waste handling operations.
