

DRUM MULCHER ATTACHMENTS

Technical Specifications

Operating Parameters

Model	V91	V121	V152	V168	V182
Weight	320kg	420kg	1150kg	1250kg	1380kg
Opening Width	914mm	1219mm	1524mm	1680mm	1830mm
Number of Teeth	21	27	36	44	52
Required Host Machine	15kW	25kW	52kW	60kW	75kW
Operating Pressure	14-21Mpa	14-21Mpa	14-21Mpa	14-21Mpa	14-21Mpa
Required Oil Flow	36-75 l/min	36-100 l/min	100-140 l/min	120-150 l/min	120-150 l/min
Overall Dimensions (L*W*H)	1250*650*1500mm	1570*680*1100mm	1500*1900*1650mm	1500*2200*1650mm	1500*2400*1650mm

Compatible with Skidsteers, TLB's, FEL's & Excavators

Our range of Drum Mulchers is engineered to tackle even the toughest vegetation, making them the ideal solution for forestry, land clearing, and agricultural projects. With five models ranging from 320kg to 1380kg, these machines cater to diverse needs, whether it's light clearing or heavy-duty applications. Designed with precision and durability in mind, our drum mulchers are built to handle dense brush, small trees, and large overgrowth with efficiency and minimal effort.
